CPSIOT 2023

2023 International Conference on Cyber Physical Systems and IoT

Changsha, China   November 18-20, 2022.

Call For Papers

Topics of interest:

- Advanced object identification, classification, and localization
- Manufacturing and Logistics
- Analysis, verification, and synthesis of hybrid systems
- Mobile computing and devices for CPS
- Augmented Reality and Virtual Reality interactions
- Networking systems for CPS applications
- Big Data system and data analytics for CPS
- Object access and networking technology
- Blockchain technology
- Optimization
- Cloud computing
- Overcoming siloization of IoT systems
- Control of CPS
- Data mining
- Real World Applications of IoT technology

- Participatory sensing
- Control systems
- Physical World Event Processing and Understanding
- Crowd-sourcing
- Physical world observations
- Cyber-physical multimedia systems and applications
- Privacy protection, data sharing technologies
- Data collection
- Real time systems
- Data security, authentication and authorization
- Real-time decision making
  ......
